# LIBRARIES QUICK TIPS

## Collections—[lib.purdue.edu](http://lib.purdue.edu)

---

The Purdue University Library system includes more than 3.8 million printed volumes and electronic books, close to 165,000 electronic and print journals, more than 377,000 government documents, and over 86,000 microforms.

## Libraries Online Search

---

Libraries Online Search is a platform that aggregates a large percentage of the library's electronic and print resources, making them all searchable at the same time from one central location. Users will find books, articles, images, datasets, graphs, charts, and many more different resource types.

## Books

---

Newly acquired books are shelved using the Library of Congress (LC) call number system, which begins with a letter. Most other books use the Dewey Decimal System, which begin with a number. Please ask staff at the information desk in any library for help locating books.
