QUICK TIPS

Collections — lib.purdue.edu

The Purdue University Library system includes more than 4.6 million printed volumes and electronic books, more than 178,000 electronic and print journals, and government documents and microforms in excess of 400,000.

Books

Newly acquired books are shelved using the Library of Congress (LC) call number system, which begins with a letter. Most other books use the Dewey Decimal System, which begin with a number. Please ask staff at the information desk in any library for help locating books.

Questions about your library account, Contact Circulation Services at
(765) 494-0369 or circservices@purdue.edu

Journals

Journals are shelved alphabetically by title except for the journals in HSSE and MATH, which are shelved by call number.

Course Reserves

Some instructors place textbooks or other course materials on reserve in the various libraries. Use the "Course Reserve" tab on the Libraries and School of Information Studies' homepage (lib.purdue.edu) to search by instructor or course number. To ensure others have access to the materials, typically, reserve materials can be borrowed for two hours at a time.

Theses - guides.lib.purdue.edu/dissertations

Purdue theses and dissertations published since 1997 are available from ProQuest's Dissertations and Theses database. Theses and dissertations prior to 1997 can be requested through the Libraries and School of Information Studies' catalog.
